MATH CONNECTS

What? The 14th Annual Sonia Kovalevsky High School Mathematics Day organized by the University of Iowa Department of Mathematics

When? Saturday, April 6, 2019

Where? The University of Iowa

Why? To encourage young women's interest in math and science with the hope that they will continue to study and ultimately to pursue careers in these fields

Who? High school aged women, their educators, and parents or guardians

Who is Sonia Kovalevsky? Sonia Kovalevsky was a renowned mathematician, writer, and advocate for women's rights in the 19th century

What activities will there be? Hands-on problem solving and learning activities, interactive workshops, talks, a poster session, and panels of professionals with math-related jobs

This year, discover how **MATH CONNECTS** us all through collaboration and interdisciplinary research.

More details and registration to come!
