

Hiawatha Summer STEM Camps

STEM Courses - Starting at \$99

*Grades entering for Fall 2018

Register online: www.sylvanlearning.com/hiawathaia/schedules

Robotics: Grades 1-6

Wednesdays from 5:00-7:00pm

June 6th - 27th

July 11th - Aug. 1st

Your child will be introduced to the world of robotics! Your budding engineer will enjoy making friends, develop new skills, and have a blast building and programming robots! Your child will be able to continue their skills throughout the level 100 courses preparing the way for ultimate success!

\$99.00

Engineering - Machine Makers: Grades 1-3

Mondays from 5:00pm-7:00pm

June 4th - 25th

July 9th - 30th

Children will use our structured curriculum taught by our trained instructors to learn the basic principles behind physical science and simple machines: gears, wheels, axles, levers and pulleys. Using LEGO® EDUCATION kits, your budding engineer will design models based on themes and they get to create their own designs too! Think CARS, SHIPS and all things THAT GO!

\$99.00

Super Structures: Grades 3-6

Mondays from 5:00pm-7:00pm

June 4th - 25th

July 9th - 30th

The kids will explore, build and test the seven basic bridge types in the world today using K'NEX®, learning concepts fit for a structural engineer or architect. Your child will have a new appreciation for these super structures!

\$99.00

Math EDGE: Grades 1-6

Algebra and Geometry EDGE: Grades 6+

Thursdays from 5:00-7:00pm

Our monthly skill practice programs for grades 1-6 and pre-algebra, algebra 1, geometry and algebra 2 build the confidence and critical skills needed to master today's math and skills yet to come - all while having a blast! And there's big academic impact with curriculum aligned with the way math is taught in school. Affordable monthly memberships available to fit into your schedule.

\$149 per month
