

# When and Where to Go

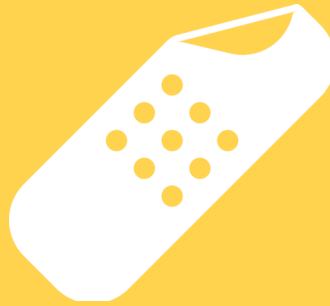

*How to choose between...*

## Primary Care

Visit your Primary Care Physician for timely treatment of acute illnesses and injuries:

- Full range of preventative care
- Common Illnesses
- Referrals to a specialist
- Ongoing medical conditions
- Medication refills

## Urgent Care

Visit Urgent Care for non-life-threatening, time-sensitive ailments. Conditions such as:

- Allergic reactions
- Sprains
- Painful urination
- Moderate asthma attack
- Cold, cough, flu or severe sore throat
- Ear, eye, or skin infection
- Nausea, vomiting, diarrhea
- Constant headache

## Emergency Care

Visit an Emergency Room or call 911 for serious or life-threatening conditions such as:

- Heart attack symptoms
- Chest pain
- Numbness in limbs or face
- Difficulty speaking
- Coughing up or vomiting blood
- High fever with stiff neck
- Stroke
- Sudden loss of consciousness
- Severe abdominal pain
- Bleeding that does not stop
